Flameguard MK3 SOLAS suit

The Flameguard Mk3 suit is a two-piece garment constructed in aluminised fire resistant cotton to EN532. The jacket has a stand-up collar, elasticated cuffs, and is closed by 50mm wide touch and close fastening to the front and collar. The trousers have 25mm webbing braces with plastic adjusters to fit a wide range of wearers. The lower leg is elasticated. One size only.

Flameguard MK3 SOLAS suit

Fire buddy plus suit

Fire buddy plus suit

The Fire Buddy Suit is a twopiece garment with a four-layer construction. The outer shell is aramid. The second layer is a waterproof breathable membrane. The third layer is an meta-aramid/ para-aramid felted thermal barrier and the fourth layer is a modacrylic/ Lenzing lining. The jacket has a stand up collar, elasticated cuffs, and is closed by a zip covered by an overlapping front with touch and close fastening to the front and collar. The trousers have wide elasticated braces with adjusters and quick-release buckles. Optional fire resistant retro-reflective tape can be fitted to the wrists, hem and ankles. Optional radio and thigh pockets can be fitted as well.

Nomex anti-flash hood & gloves

Hood: provides protection to the head, neck, face and hands from short-duration flame exposure and heat.

Gloves: designed to give a comfortable and flexible feel while maintaining the high degree of protection required by EN659:2003+AI. The PalmBuddy Gloves have a waterproof, breathable lining which also enhances their chemical resistance. Protection against penetration and cuts is provided by the Kevlar lining. Tested and approved to EN:659:2003 and AI and MED 96/98/ EC as modified.
