

# Model 71 Standard Basket Stretcher

P/N MED0300

The Model 71 Basket Stretcher durable and easy to handle, making it ideal for you to use in almost any rescue situation. It provides full-body protection to patients, even when they need to be transported across uneven, hazardous ground and offers room to accommodate blankets and life support equipment.

## Features

- High-density, polyethylene shell is supported by a permanently attached, heavy-duty, aluminium frame
- Shell is chemical, UV, rust, and corrosion resistant, ensuring long life
- Moulded-in runners and handholds make the stretcher easy to handle
- Replaceable, closed-cell foam mattress attached inside for patient comfort
- 5-Section flotation collar attaches to the Model 71 Basket Stretcher to provide flotation assistance for water rescue
- Four 2-piece, 5-foot-long quick-release patient restraints are simple to use and permit rescuers to easily change the position of straps to fit each patient
- Brass grommets are strategically located for quick use with Model 418-1 adjustable lifting bridle
- Weight: 10kg
- Load Limit: 272kg
- Width: 61 cm
- Height: 19 cm
- Length: 218 cm
