

Pilot Pro 180 Inflatable Lifejacket

P/N P200482

The Pilot 180 lifejacket sits at the intersection of leisure boating and professional activities. With a buoyancy of 180N, it features a durable protective cover made from 300-denier polyamide fabric with a PVC coating. This cover ensures effective protection against wear and tear during activities such as recreational sport fishing or professional fishing, as well as for industrial applications.

The Pilot 180 lifejacket is ISO 12402-3 certified, ensuring safety and reliability.

Features

- An improved life jacket
- Buoyancy increased to 180N to enhance the efficiency of turning over and the freeboard for wearers equipped with heavy clothing.
- Black Ergonomic collar made from polyester fabric with polyurethane coating for improved flexibility.
- Closure buckle available in glass fiber polyamide or 316L stainless steel.
- Bladder fabric: fluorescent yellow SOLAS-certified, coated with polyurethane.
- 300-denier nylon fabric for the cover, coated with PVC and treated with UV protection.
- Manual inflation pull tab located at the bottom of the vest, positioned close to the body to prevent accidental snags.
- Automatic or hydrostatic Hammar inflation modes.
