

Plastimo Transocean ISO 9650-1 Liferaft

P/N P52161

Designed for navigation in extreme conditions: -15°C inflation temperature (group A), double insulating floor, fluo orange canopy with automatically erecting arch tube, 4.3 cd. outside light and retro-reflecting stripes, large capacity and quantity of ballast pockets, large volume drogue anchors.

Features

- Weighted reversible boarding ladder and interior handle to facilitate boarding
- In case of capsizing, the boarding ladder flips to allow climbing onto the overturned raft, facilitating righting
- Fluorescent orange canopy with automatic inflatable arch
- Available in different sizes for 4, 6, 8, 10 or 12 people
- ISO 9650-1 certified
- Radar reflective and retro-reflective strips
- Two equipment pack options:
 - < 24 hour pack (basic equipment for <24 hour rescue estimate)
 - > 24 hour pack (additional water, survival rations, 2 insulating suits, extra flares and torch)
